

Stacy Tomasi

UX Auditor | Interaction Design | Usability Analyst

San Jose, CA | 408.431.5547 | stacy.tomasi@gmail.com | tomiux.com (portfolio) | [LinkedIn](#)

Summary

I find what's broken and design the fix. Ten years at Coursera, WorkBoard, and Illumio trained me to diagnose friction systematically, document findings, and translate ambiguous problems into clear recommendations. That same instinct, now backed by formal UX methods, applies directly to usability evaluation and interaction design. Master of Science Candidate (MS) in User Experience, Kent State University, Dec '26.

Portfolio of Work

Heuristic Evaluation: [Pottery Barn](#) & [Starbucks vs. Philz](#) (comparative)

Usability: [Blue Nile vs. Brilliant Earth](#) (comparative), [Philz Coffee](#) (research)

UX Research: [Yelp](#) (study)

Accessibility: [NPR.org](#) (WCAG audit) & [StubHub](#) (annotations)

Cognitive Audit: [Coursera](#)

Interaction Design: [August Home](#) (end-to-end)

Skills

Research & Evaluation: Heuristic evaluation, UX auditing, cognitive walkthrough, usability testing (moderated & unmoderated), severity rating, competitive analysis, root cause analysis, user interviews, surveys, affinity mapping, journey mapping, stakeholder communication

Interaction Design: Prototyping (Figma, paper), wireframing, task flow analysis, design patterns, iOS/Android UI, card sorting, information architecture

Accessibility: WCAG 2.2, VoiceOver (Mac & iOS), Color Contrast Analyzer, Coblis, Section 508

Tools: Figma, FigJam, UserTesting.com, Lyssna, Maze, Loop11, Dovetail, Wave, Google Workspace, Microsoft Office, Canva, Slack, Lovable, GitHub, Claude AI

Relevant Research & Fieldwork

Substitute Teacher & Classroom Aide: Implemented a readiness system at the start of class, using incentives to set clear expectations and routine; **increased student preparedness by 50%**, informed by observed patterns in task transitions and digital tool engagement among neurodivergent and general-education students (Moreland School District 2023-2025)

Education

Master of Science Candidate (MS) in User Experience, Kent State University, Dec 2026

Coursework: UX Evaluation, Interaction Design, Accessibility & Universal Design, Usability Research, UX Processes & Practice

Bachelor of Science (BS) in General Psychology, Capella University, March 2025

Professional Experience

What you'll see: People Experience and Operations titles. What to keep in mind: I applied the same audit loop (diagnose, gather evidence, redesign) to employees, systems, and digital products.

Experience Design Analyst, FRI Energy Cons., San Jose, CA Apr 2023 – Present
(previously Office Manager, Apr 2012 – Feb 2018)

- Audit service delivery processes across 900-1,100+ contracted jobs annually to identify friction points and redesign workflows that reduce client effort and operational overhead
- Replaced manual, email-based proposal distribution with a digital proposal and e-signature workflow, achieving a **90% completion rate** and a centralized repository accessible across the workforce
- Redesigned the payment workflow to require payment before report delivery, recovering an estimated **\$30k in annual revenue** by eliminating unpaid invoices

Workplace Services Manager, Illumio, Sunnyvale, CA Jul 2022 – Apr 2023

- Conducted structured research with new hires and redesigned resource materials to improve clarity and usability, reducing first-day onboarding friction by **80%**
- Translated ambiguous post-COVID requirements into a clear Return to Work protocol that users could navigate
- Developed a digital communication strategy to improve employee awareness and engagement with workplace programs

People Experience Manager, WorkBoard, Redwood City, CA Jun 2021 – Jul 2022

- Built the information architecture, content strategy, and training videos for a newly acquired intranet platform, achieving **91% user adoption within 60 days** and centralizing resources company-wide
- Designed end-to-end attendee experience for a 250-person company off-site, owning every touchpoint from hotel to A/V to on-site engagement
- Owned participant experience for a vendor-led Leadership Impact Program, managing communications and logistics end-to-end and reaching **25% of the employee base**
- Planned and facilitated quarterly OKR alignment off-sites and 10+ monthly hub meet-ups for a distributed workforce

Engagement Manager, Coursera, Mountain View, CA Feb 2018 – Jun 2021
Promoted from Administrative Project Manager / Space Planner

- Conceived, pitched, and executed Camp Coursera, a week-long virtual event for **800+ globally distributed employees**, taking the program from idea to delivery in three weeks
- Designed, branded, and launched a 5-program virtual event system grounded in research on isolation and connection needs during COVID, reaching **1,000+ employees**
- Conducted field observations studying how employees and visitors entered and used physical spaces, including navigating first-contact moments, using findings to inform spatial and program design decisions
- Evaluated post-event engagement through structured surveys across 900+ employees, iterating on program design based on findings
- Led a \$1.3M expansion project, conducting user research with senior leadership and designing the spatial program to optimize workflow and collaboration, increasing on-site capacity by **88% (425 to 800 employees)**
- Managed a \$1M employee experience budget, setting priorities and evaluating ROI, contributing to a **98% employee pulse survey participation rate**
